How Elder County and Golden Spike National Historic Site

## The Last Spike Is Driven . . . !

This unique festival in the nation and a nation's world 100 years ago signified the end of the last frontier in every sense, and opened the way for development of the West.

On this occasion we have our attention momentarily from a new frontier, that of space travel, and pay tribute to the spirit and initiative of those early railway builders.

Key events within the quality of rugged determination and purpose have been there throughout all time.

### On This Special Commemorative Occasion

We express our best wishes to the Golden Spike Association of How Elder County for its continuing efforts to extend us of the "Wedding of the Rails" and the importance of this great event to our nation.
